

Travel Mood

This amazing Summer Camp is dedicated to youths aged 12 to 20 years old.

Our program takes place inside **Hang Loose Beach**, a 15,000 m² seaside sports park located in the municipality of Gizzeria Lido, just 5 km from Lamezia Terme International Airport. It is a large structure dedicated to the practice of sailing sports and more. Inside, in fact, you can find all types of services: equipped beach, restaurant, bar, pizzeria, basketball court, volleyball court, children's playground, wellness area with jacuzzi and massage area. Our school, now known throughout the world for the organization of international kitesurfing

events and competitions, is the ideal place to learn this fantastic sport both for its immense, obstacle-free beaches and for the constant thermal wind that blows from April to September.

Program

Our program aims to bring beginners to complete autonomy in the practice of kitesurfing or to sail in complete tranquility immersed in nature and caressed by the wind. Everything is coordinated by highly qualified FIV instructors, who will follow the children at all times of the day. Our proposal, dedicated to sport, nature and entertainment, includes: 1. Basic kitesurfing course to learn the basic technique and start sailing in complete autonomy and safety. The kitesurfing course will be carried out in the afternoon hours immediately after lunch to take advantage of the best thermal wind conditions. The part in the water will be carried out with support boats with which the instructors will follow the student step by step. 2. Advanced Course: Once the student's real abilities have been determined, any remaining technical gaps where present are filled to complete an uncompleted educational path or new objectives to be achieved are determined. 3. Alternative sporting activities such as windsurfing, wing foil, SUP, volleyball and basketball will be carried out in the morning hours.

The School

Our program aims to bring beginners to complete autonomy in the practice of kitesurfing or to sail in complete tranquility immersed in nature and caressed by the wind. One of the most accredited schools on the national scene and beyond, it is known throughout the world for the international competitions that are organized every year. High-level FIV instructors teach the practice of kitesurfing with professionalism, method and in complete safety. The beginners are followed first on a course on the beach which allows them to achieve full control in managing the kite and then on a course in the water with a support boat where, at the end, they will be able to reach and experience the beautiful sensation of gliding in water. For kids who already have a good foundation in kitesurfing, the instructors will teach them beautiful maneuvers. In carrying out the school's activities, new equipment is used, as well as radios, helmets and life jackets... because safety comes first. At the end of the course, a certificate from the Italian Sailing Federation (FIV) will be issued which will indicate the level achieved by the student throughout the course.

Location

Hang Loose Beach

The program includes accommodation in tents. The tents are complete with mattress, sheets, pillows and duvet. There will be stations for charging mobile phones in the area. The campsite has a dedicated service area which includes bathrooms and hot showers. The tents will be shared by children from the same family unit or by children not belonging to the same family unit upon specific request of the families.
